## U-Crate 200 Self Load Crate Set Up Instructions

Watch the set up video here: <http://youtu.be/p7YooNZqmfa>  
(no longer has plastic cover – it spends its life in a warehouse, truck or container!)

		
<p><b>Step 1.</b> Open your U-Crate by cutting the tie straps and take off the lid. You'll find everything you need- 2 wall sleeves, base, lid, straps, tape, and pallet.</p>	<p><b>Step 2.</b> Remove the wall sleeves. Stand one sleeve along 2 sides of the base and place the second sleeve along the other 2 sides.</p>	<p><b>Step 3.</b> Place the lid on top of the U-Crate.</p>
		
<p><b>Step 4.</b> Toss the 2 black straps across the U-Crate lid, across the width side (see step 6 picture as well). Feed straps through the pallet, and secure the straps.</p>	<p><b>Step 5.</b> Load your items into your U-Crate! Place furniture and heaviest items on the bottom, fill in the space with your boxes and wrapped items. Then close the doors.</p>	<p><b>Step 6.</b> Using the entire roll of tape, secure the doors shut by walking the tape around the U-Crate several times. Have a row of tape on the lower and upper portions.</p>
		
<p><b>Step 7.</b> Toss the red straps across the U-Crate lid, across the length side (opposite ends to the black straps). Feed straps through the pallet, and secure the straps. Tie off any excess strap.</p>	<p><b>Step 8.</b> Tape the provided labels to the outside of your U-Crate. Let the warehouse manager know you are finished, and your U-Crate is ready to go! Well done!</p>	<p><b>Your U-Crate 200</b> will make it's way to our loading terminal, and will then be loaded into the shared container! At destination the contents delivered into residence loose via moving truck.</p>
<p><b>External dimensions: 87" x 47" x 87" LxWxH = 200 cubic foot crate // Internal dimensions: 83.75" x 44.75" x 81" LxWxH</b></p>
